

A person with dark hair, wearing a black long-sleeved shirt and dark pants, is sitting on a large, weathered wooden log in a lush green field. They are looking towards the horizon where the sun is setting, casting a warm orange glow. The sky is filled with soft, colorful clouds. In the background, there are rolling hills and a dense forest of evergreen trees. The overall scene is peaceful and scenic.

Awareness is the first step towards transformation.

- Daniel J. Siegel

PRESENCE IN THE WILD ADVANCED is a 10-day wilderness journey and profound experience of Self in the pristine nature of the Southern Carpathians in Romania.

This awareness retreat, which is inspired by and is following the tradition of 'Sacred Passages' (John P. Milton/ The Way of Nature), is an unique opportunity to experience a deep immersion in nature including a 7 days and 6 nights Solo time in a truly remote area of the Southern Carpathians.

These often deep experiences of connectedness, presence and clarity are a healthy base to (re) connect with your true intentions and your own genuine nature.

It is a special opportunity to listen more closely to what Life is asking and offering you for more attunement with Self and your ecosystems.

The first part of our 'Journey' takes us to a nicely located guesthouse in Vulcan, Transilvania, close to Brasov. From there on the next day we embark on our journey deep into the Carpathian Mountains, the Valea Dambovita. The Cabin, which is owned and part of the project area of Carpathia has been freshly restored and adjusted to serve as basecamp for our advanced Awareness training, before moving to the individual Solo spots deep in the Valley and on the mountain ridges.

Well prepared, with senses sharpened and a spirit more at rest, we are setting out for 7 days and 6 nights of solo time in nature.

*Inner nature,
outer nature,
true nature.
